

Product Code: 1127022
Product name: Tilt Hurdle Large

Overall Dimensions: Length: 886mm
Width: 510mm
Height: 660mm
Mass: 2,44kg

Part:	Description:	Dimension/mm:	Mass/kg
1/riser	Φ19x1.5	882x528	0,42
2/hurdle foot	Φ23x1.5	508x588	0,64
3/plastic parts:	EVA plastic 89x28x24 RAL 2002/pantone 179C		0,05
Heights:	660,710,760,840,910,1000,1060(±3mm)		

Ethylene vinyl acetate (EVA) is the copolymer of ethylene and vinyl acetate. It's an extremely elastic material that can be sintered to form a porous material similar to rubber, yet with excellent toughness. The porous elastomeric material is three times as flexible as low-density polyethylene (LDPE), showing tensile elongation of 750% with a peak melting temperature of 250°F (96°C). Ethylene vinyl acetate (EVA) is not hazardous by ingestion, unless you eat an object made of EVA that's big enough to cause choking or other problems. EVA is not considered flammable.
